

Promoting the **Study of AGI** since 2006

Who We Are

The Artificial General Intelligence Society is a nonprofit organization dedicated to advancing the study of AGI. We facilitate cooperation and communication among researchers, host the field's longest-running conference series, and publicize knowledge and views on AGI research.

The AGI Conference Series

Since 2008, the AGI Conference has been the oldest and longest-running scientific gathering devoted entirely to general machine intelligence. Past speakers include luminaries like Yoshua Bengio, Richard Sutton, Jurgen Schmidhuber, Peter Norvig, Gary Marcus, Francois Chollet, Marcus Hutter, Ben Goertzel, and Christof Koch. Join us to explore the forefront of AGI research and innovation.

AGI-26 CONFERENCE

Hosted by
AGI Society

The 19th Annual World Conference
on Artificial General Intelligence
July 27 to 31, 2026 | San Francisco, CA

Co-organized by  SingularityNET
